

Onboarding Case Status Transition Rules

1. Purpose

This document defines the valid CaseStatus values and the rules governing transitions between them.

2. Status Values

A case may hold one of four statuses: Open, InReview, Approved or ReadyToTrade.

3. Open to InReview

A case moves from Open to InReview once screening has started and at least one KYCAssessment record exists for the case.

4. InReview to Approved

A case moves to Approved only when the KYCAssessment ApprovalStatus is set to Approved by an authorised reviewer.

5. Approved to ReadyToTrade

A case moves to ReadyToTrade only once at least one TradingAccount has been provisioned with Active status and the ReadyToTradeDate has been recorded.
